3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box II Observations where unity of invention is lacking (Continuation of Item 2 of first sheet)

This International Searching Authority found multiple inventions in this International application, as follows:

see additional sheet

1. ☐ As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. ☒ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. Claims: 1,2

A heart valve prosthesis having a plurality of leaflets encircling a flow opening and a size to coapt to form a valve, each leaflet having a free outflow edge at the outflow end of the leaflet, wherein the free outflow edge forms a convex (relative to the leaflet) curve in the plane of the leaflet.

2. Claims: 3-24,29-47

A method for forming a heart valve prosthesis comprising the steps of assembling the valves, by steps comprising forming a plurality of leaflets joined to encircle a flow passage and of a size to coapt to form a valve, and forming an outer sheet joined to the leaflets around an inflow end and along commissures formed where adjacent leaflets join, after assembly of at least the leaflets and outer sheet of the valve, shaping the leaflets and/or outer sheet to a desired shape, fixing the leaflets and/or outer sheet of the valve in the desired shape.
